

CardioRose Endurance Supplement

Revolutionary clinically approved ingredients...

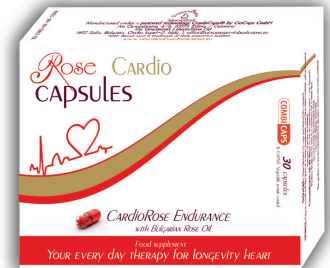

About product

CardioRose Endurance Supplement is the result of an innovative solution for the capture of pure **Rose Damascena Oil** in a capsule thanks to a technology that maximizes absorption of nutrients through the unique patent pending processing system **capsule in capsule** technology of CombiCaps®.

- Microtablets in inner capsule protect the active key ingredients -Rose Damascena oil and Glucagel™ keeping cholesterol and triglycerides at a healthy level
- Helps maintain unobstructed coronary arteries
- Supports healthy blood pressure
- Helps to promote blood circulation, maintains the cardiovascular's health, ultra-intense antioxidation, free radical scavenging.

- Approved ingredients HEALTH CLAIMS by EFSA
- Made under strict GMP (good manufacturing practices)
- Revolutionary clinically approved Ingredients
- Youth for the heart through the power of Bulgarian Rosa Damascena Oil
- Extra energy production at the cellular level
- Even greater cardiovascular support through:
 - Healthy blood pressure levels
 - Optimal HDL and triglyceride levels
 - Improved circulation

Rosa Damascena Oil

The EU Medicines Agency reported positively on the Rosa Damascena flower oil as a Traditional Herbal Medicine.

Pharmacological studies along this line reveal some interesting effects of rose oil on the cardiovascular system:

- In the “Bruxelles Code IV 1024” emphasis was laid on the tonic action of rose preparations - The analeptic effect of rose oil: patients with heart diseases, susceptible to collapse, were advised to drink rose oil
- Rose oil shown positive effect for poor circulation and heart problems, which would include heart palpitations, arrhythmia as well as high blood pressure.
- Rose oil has a pronounced effect on the circulatory system, promoting circulation, cleansing the blood, relieving heart congestion, and toning the capillaries.
- The recent data concerning the regulatory effect of rose oil on the heart rhythm are in accordance with the opinion expressed by the medieval authors Mathiolus and von Heller (17th century) to the effect that rose preparations “strengthen” the heart and eliminate its “fibrillation”.

CardioRose Endurance Supplement

Glucage!™ – High Purity (1-3)(1-4) β-glucan

Glucage!™ is a high purity (75%) naturally extracted barley beta-glucan which are scientifically proven to provide a remarkable range of health benefits, including improves blood glucose control by slowing down the body’s absorption of glucose from food.

In preliminary studies beta-glucans have been shown to reduce the blood glucose response of a glucose test drink by 12%, whilst maintaining palatability.

EFSA approved health claims: “Barley beta-glucan has been shown to lower/reduce blood cholesterol. High cholesterol is a risk factor in the development of coronary heart disease.” the beneficial effect is obtained with a daily intake of at least 1 g of barley beta-glucan per quantified portion.

Extra Virgin Olive oil

Extra Virgin Olive oil is an important source of natural antioxidants, has an authorized health claim in the EU respective EFSA(1) : Olive oil polyphenols contribute to the protection of blood lipids from oxidative stress and protection of LDL particles from oxidative damage.

FRUITmega™ Pomegranate Seed Oil CP

For millenniums traditional healers have turned to the pomegranate as a source of good health. Its blood-red juice and separate chambers inspired many healers to link it directly to heart health.

And their theories were not far off.

• In his article, "Pomegranate, Old and New," published in the journal Alternative Therapies in 2008, expert herbalist James A. Duke, Ph D noted that pomegranate seems to support heart health in at least 14 different ways.

• From blood pressure regulation to cholesterol levels; from antioxidant defense to anti-inflammatory power – pomegranate provides a wealth of heart health benefits.

Healthy Arteries and 50% more Nitric Oxide: A preliminary study on mice published in Cardiovascular Research reported that mice fed pomegranate extract had 50% higher nitric oxide levels and lesions on their arterial walls were shrunk by 25%.

Healthy Cholesterol Levels: A study published in the Journal of Medicinal Food found that within 8 weeks people who took pomegranate had improved cholesterol levels.

Capsule key advantages:

K-CAPS® Vegetarian Capsule complies to EU regulations for "organic" - certified products

- Free of preservatives and allergens
- Non-genetically modified (non GMO)
- Halal and Kosher certified

CombiCaps® the revolutionary two-capsule technology delivers incompatible ingredients and gives the possibility to modify release of active ingredients according to the needs. Immediate release capsule is delivered into the body instantly. On the other hand, time released pellets/ intend to slowly release its active ingredients into the body over time.

- Hermetically sealed capsules retard/slow down the oxidation and increase shelf-life of the product.
